“Proteomics of Protein Aggregation Diseases”
B/D HPP Working Group

October 8, 2014 - Room H of the main Auditorium

Program

8.00-8.10	Introduction (P. Picotti)
8.10-8.20	**Bouke Hazenberg** (University of Groningen, Netherlands) - “Amyloidoses: fatal diseases caused by misfolded proteins”
8.20-8.30	**Paul Boersema** (ETH Zurich, Switzerland) “Targeted MS assays for the clinical diagnosis and subtyping of systemic amyloidoses in subcutaneous fat aspirates”
8.30-8.40	**Giampaolo Merlini** (University of Pavia, Italy) “Proteomics in the understanding and management of systemic amyloidoses: the Pavia experience”
8.40-8.50	**Melinda Rezeli** (Lund University) “Disease developments in Parkinson and Malignant Melanoma”
8.50-9.00	**Paola Picotti** (ETH Zurich, Switzerland) “Towards MS-based conformational (bio)markers?”
9.00	Wrap-up (P. Picotti)
