

HUPO PUBLICATION COMMITTEE 2020 REPORT

A) Mission of the Publication committee:

Mission by law - the HUPO-Publication Committee (PC) shall interact with the scientific journals and the scientists in the field of Proteomics. HUPO-PC shall to establish and promote the vision of the corporation with respect to guidelines in publications related to proteomics and HUPO related activities. The Publications Committee shall oversee the Website and other electronic bases (e.g., Facebook, Twitter) established for sharing HUPO news and information with Members and the public.

B) Members (update for the 2020-2021 period):

Andrea Urbani (Italy)	Chair	andrea.urbani@unicatt.it ;
Deborah Penque (Portugal)	Co-Chair	deborah.penque@insa.min-saude.pt ;
Jean-Charles Sanchez (Switzerland)	Past Chair	jean-charles.sanchez@unige.ch ;
Mark Baker (Australia)		mark.baker@mq.edu.au ;
Andrew Pitt (UK)		a.r.pitt@aston.ac.uk ;
Eric Deutsch (USA)		edeutsch@systemsbiology.org ;
Yasushi Ishihama (Japan)		yishiham@pharm.kyoto-u.ac.jp ;
Charles Pineau (France)		charles.pineau@inserm.fr ;

Note: Daniel Martins-de-Souza (Brazil) 'resigned'
resigned due to work overload he has had at the university

C) Committee activities between August 2019 and August 2020:

Since our last report (August 2019), we essentially continued to pursue the goals defined for the following four working groups:

WG 1: Define, draft, negotiate, and confirm/renewel agreements with Publishers including award opportunities (co-leader: Andrea Urbani, Jean-Charles Sanchez and Deborah Penque).

WG 2: Collaborate with the HUPO website and HUPO social media activities (Facebook, Twitter) and oversee other social media related to proteomics journals, proteomic scientists, innovations in proteomics, and publication standards. It is also intended to promote HPP publications (leader: Charles Pineau,).

WG 3: Provide information to HUPOST regarding B/D HPP publications or other HUPO-members relevant publications (co-leader: Yasushi Ishihama, Andrew Pitt, Mark Baker)

WG 4: Evaluate the current status of journals actively committed in their editorial vision in the publication of proteomics studies regarding the FAIR guidelines and the Plan S program (co-leader: Andrea Urbani, Eric Deutsh, Jean-Charles Sanchez)

In this way and following WG 1 objectives, we have dedicated mainly to the renewals of contracts with the publishers: Journal Proteomics Researc ; Clinical Proteomics, Journal of Proteomics and Wiley (see below the summary table) .

- The agreements with JPR, Clinical Proteomics and Journal of Proteomics are in the process of being renewed for a 3-year term. The agreement for 2020 has needed to be revised to accommodate the virtual congress HUPO Connect 2020.
- There is no agreement with Wiley.
- MolecularOmics supported the 2020 PhD Poster Competition and is providing USD \$600 in support.

Under WG 2 and WG 3 objectives, we have also promoted the special issue “Cancer Omics” – PROTEOMICS. Proteomics and System Biology, Volume 19, Issue 21-22, Wiley, through several HUPO dissemination fronts (e.g., LinkedIn, HUPO- Facebook, HUPO-Twitter, HUPOST).
