*** Which Executive Committee Position are you nominating for?**

Vice President (2020-2021)

*** Name**

Susan Weintraub

*** Position or Title**

Professor

*** Institution/Affiliation**

University of Texas Health Science Center at San Antonio

*** Please describe in 300 word or less why you are a suitable candidate for the HUPO Executive Committee.**

I have been actively engaged in biomedical mass spectrometry since the early 1970's, analyzing "small" molecules until the late 1990's when my efforts shifted to proteomics. I am a co-author on >180 peer-reviewed publications (Scopus h-index 43). I have frequently participated as chair for review of NIH national (proteomics and glycomics) MS resources and grant applications for major instrumentation funding. After serving on the Editorial Board of the Journal of Proteome Research, I became an Associate Editor for the journal in 2011 and focus on informatics and MS technology. Previously, my scientific society activities were predominantly with the American Society for Mass Spectrometry (ASMS). I was elected to the Board of Directors as Secretary and then Member-at Large for Publications and subsequently served a six-year term as VP Programs, President and Past-President. Following that commitment, I have had the time to become involved in various aspects of HUPO, many in leadership positions. My main efforts have centered on the HPP, as chair of the MS Resource Pillar and member of the Executive Committee. During the past two years, the MS Resource Pillar has been conducting a "phosphopeptide challenge," and the committee is currently compiling the results from phosphopeptide sample analysis by HUPO members for presentation at the 2019 conference. I have also had the honor of serving on the HUPO Council for the past three years and value the opportunity to provide input to the officers for future HUPO initiatives. I am submitting this nomination for HUPO Vice President in order to increase my level of participation in the society. I hope to capitalize on my many years of experience in scientific society organization for the benefit of HUPO. Further, I aim to participate actively in the HUPO Early Career outreach programs and help champion gender and region diversity equity.

HUPO Activities: List any relevant experience serving on a HUPO committee or involvement with HUPO congresses.

HPP Executive Committee, member, 2016 - present
HPP MS Resource Pillar, chair, 2016 - present
HUPO Council, member, 2016 - present
HUPO Awards Committee, member, 2018 - present
